- 1) The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is that the cited prior art does not show a method of making pulp flakes that includes introducing dewatered pulp into a flaker, the flaker having a first and a second rotor rotating in opposite directions, each of said rotors having a plurality of fingers on each of said rotors, the fingers of the first rotor passing interspaced between the fingers of the second rotor, wherein the majority of the length of the fingers of the first rotor overlaps with the adjacent fingers of the second rotor (claim 1).

The closest prior art is Thale (3,554,453). Thale does not disclose the invention in that Thale method discloses flaker apparatus having a depth or a length of engagement between shredding teeth of adjacent rotors not more than half a length of a tooth (col. 4, lines 29-45 and Figs. 2, 5).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

- 2) Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Halpern whose telephone number is 571-272-1190.
